---

## experience

April 2018 - Present

Animations for Aberdeenshire Council

Series of three stop motion animations to highlight what happens  
to recyclable materials and the larger benefits of recycling.

March 2018

Animations for The Locked Door, Aberdeen

Series of digital idents to introduce potential customers to  
escape room games and advertise the individual rooms, along  
with a suggested logo refresh.

June - September 2017

Valet - Vauxhall Inverness

I had the responsibility of looking after clients, ensuring  
products were always ready on time and in prime condition  
for presentation. This improved my time management skills  
and made me aware of the importance in managing client  
relationships and expectations.

December 2016

CD:TV Ident

As part of my third year at university, I created a sting for RGU  
TV. This allowed me to teach myself a new skill in the form of  
3D animation.

June 2016

Art and Design Teaching Assistant

I had the responsibility to apply my knowledge gained whilst at  
university to help lead younger classes in drawing techniques  
and colour theory, while advising the Advanced Higher students  
on what to expect from Art School and also help young creatives  
build their portfolios. I learnt the importance of passing on skills  
which I believe will help me in the workplace.

July 2012 – Present

Waitor/Housekeeper – Lochardil House Hotel

Responsibilities include ensuring that guests have everything  
they need throughout their stay and co-ordinating and training  
the younger staff in the restaurant and during functions.  
Working at the hotel has built my confidence and improved  
my communication skills. I have also become accustomed to  
working effectively under pressure and I know the importance  
of being professional in stressful situations and feel this is a  
useful skill to bring to future employment.
